Professional Summary

Full Stack Developer with hands-on experience building web and desktop applications using React, Next.js, Node.js, and PostgreSQL. Skilled in RESTful API design, request/response workflows, authentication, and database management with Prisma ORM. Experience extending web frontends into cross-platform desktop apps using Tauri. Holds an MCA, 2026. Quick learner, comfortable managing priorities independently in fast-paced, cross-functional teams.

Technical Skills

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Desktop: Tauri

Cloud & DevOps: Docker, GitHub Actions, Vercel, AWS SES

Databases: PostgreSQL, Firebase, Prisma ORM

Tools: Git, GitHub, Postman, Sentry, Linux

Professional Experience

Software Engineer I

Aug 2024 – Present

Ayat Solutions LLC

Remote

- Developed RESTful APIs using Node.js and Express.js for user registration, campaign management, and transaction processing in a live production application.
- Built full-stack features spanning validated backend endpoints and React/Next.js frontend dashboard components, working with JSON data structures throughout.
- Implemented JWT authentication and role-based access control to secure application endpoints and manage user sessions.
- Designed PostgreSQL database schemas with Prisma ORM and wrote optimized queries to ensure data consistency.
- Participated in code reviews, adhered to engineering best practices, and used Postman for API testing.
- Set up CI/CD pipelines using GitHub Actions for automated testing and deployment.

Projects

Turbo Explorer – Cross-Platform Desktop File Explorer

2024

github.com/Anvarkangadiyil/file-explorer-rust

React | TypeScript | Tauri | Rust | Vite

- Built a cross-platform desktop file explorer using Tauri, pairing a React/TypeScript frontend with a Rust backend for fast, native-speed file search.
- Designed the application UI with React Router, sidebar navigation, and toast notifications for a responsive desktop experience.

Axiom – AI-Powered Cloud IDE

2025

github.com/Anvarkangadiyil/axiom

Next.js | TypeScript | Node.js | CodeMirror 6 | Claude API | Convex | WebContainers

- Built a web-based coding environment using Next.js and CodeMirror, with AI-powered code suggestions via Claude API and an autonomous coding agent for bug fixes and feature implementation.
- Implemented real-time file synchronization and in-browser code execution using Convex and WebContainers.

LeetCode Copilot – AI Assistant Chrome Extension

2025

github.com/Anvarkangadiyil/leetcode-copilot

React.js | TypeScript | Chrome Extension API | Gemini API | Firebase | IndexedDB

- Developed a Chrome extension with step-by-step coding hints via Gemini API, dual Firebase/IndexedDB storage for cloud sync and offline access, and a caching layer to reduce redundant API calls.

Education

Master of Computer Applications (MCA), 2026

Nehru College of Engineering and Research Centre, Thrissur, Kerala

Coursework: Data Structures & Algorithms, OOP, DBMS, Software Engineering, Machine Learning

Bachelor of Science in Computer Science

2021 – 2024

University of Calicut, Kerala

Certifications

Introduction to Software Engineering – IBM

Feb 2026

Python Programming – Spoken Tutorial, IIT Bombay

Dec 2025
